Updates

Date: 8/14/2019 Status: Reviewed - Follow-up Required No Further Action: ✓

Author: Stockdill, Scott

Notes:

According to the incident summary, this spill impacted the surrounding area. Follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 8/28/2019 Status: Inspection No Further Action: ✓

Author: O'Gorman, Brian

Notes:

Arrived on location at 17:52. 87 degrees F, Sunny, Southwest wind 10-20 mph. Drove to the GPS location and took photos. The GPS point was approximately 300 feet into a mature wheat field. I did not notice any equipment tracks through the wheat field and/or notice any impacted wheat. More follow-up needed. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 9/3/2019 Status: Correspondence No Further Action: ✓

Author: O'Gorman, Brian

Notes:

Spoke to the company contact via telephone at 14:50. Was informed that they had not begun work due to the landowner requesting them waiting until he harvested the wheat field. The contact insured me that the location provided on the report, via GPS was correct and they would most likely be remediating the site this week or next week. More follow-up needed.

Updated Volumes and Contaminant None at the time of this update

Date: 9/4/2019 Status: Inspection No Further Action: ✓

Author: Stockdill, Scott

Notes:

Arrived on location 1:59 9/4/2019.

No sign of contamination or contaminants at the described location. Contact company regarding site cleanup and location.

More follow-up is necessary.
